Adaptive Adobe Photoshop 2024 Assessment Test With In-Application

Mr. A.

Group 1

Skill Level: Advanced – 4/5

Time: 15:04

Test date: August 4, 2025

1. Result
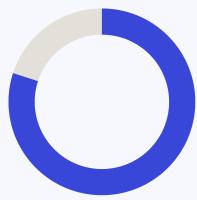

Skill Level: Advanced - 4/5

The candidate demonstrates strong skills in image corrections, exports, and basic interface navigation. They excel at adjusting image properties, converting images to black and white, and using hue adjustment layers. However, they struggle with advanced techniques like layer management, smart filters, and script creation. The candidate shows proficiency in web export functions and basic tool usage, but needs improvement in more complex Photoshop operations.

3. Domains

Interface, Digital Workspace, and Fundamentals
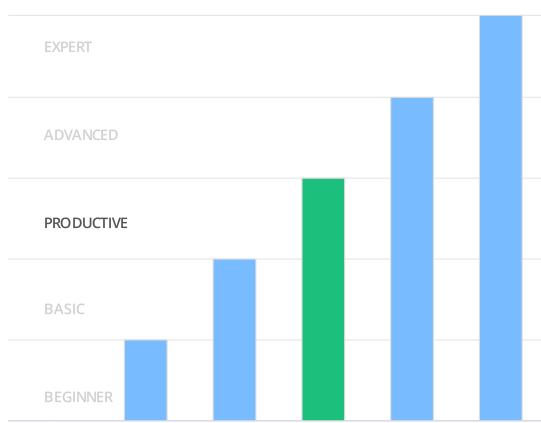

AI analysis of answers

The domain 'Interface, Digital Workspace, and Fundamentals' encompasses skills such as creating, opening, and saving documents; understanding digital graphics; image structure; colorimetry; formats; and keyboard shortcuts. The candidate demonstrates a productive skill level of 3/5. They are able to identify file tab information accurately and define bitmap mode effectively. However, they struggle with defining the pen tool and using the patch tool efficiently. Their knowledge is solid in basic operations like using layers but lacks depth in more advanced tasks involving specific tools.

Geometry and Image Corrections
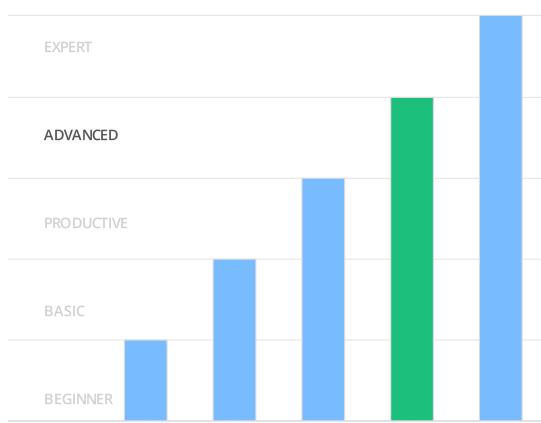

AI analysis of answers

In 'Geometry and Image Corrections', which involves cropping images, adjustment layers usage, artistic retouching applications, etc., the candidate shows an advanced skill level of 4/5. They excel at applying filters even on complex practical exercises positively impacting their overall score significantly. The candidate understands how to use hue adjustment layers well while also distinguishing between various retouching tools effects proficiently demonstrating strong command over both fundamental corrections techniques along with sophisticated editing processes.
